EDUCATION

The LNM Institute of Information Technology (LNMIIT)

Jaipur, India

B.Tech in Computer and Communication Engineering; CGPA: 7.88 / 10.0

Expected May 2027

Relevant Coursework: Data Structures, Analysis of Algorithms, DBMS, Operating Systems, Object-Oriented Design

TECHNICAL SKILLS

Programming Languages: Java, C++, Python, C#, SQL, JavaScript, TypeScript

Backend & APIs: REST APIs, Microservices, ASP.NET Core, Entity Framework, Flask, AWS Lambda, API Gateway

Frontend & Web: HTML, CSS, JavaScript, Next.js, React.js, Tailwind CSS

Databases: MySQL, SQL Server, DynamoDB

Cloud & Tools: AWS (Lambda, API Gateway, DynamoDB, Bedrock), Git, Linux, Docker (Basics), Vercel

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, System Design, Database Design, Problem Solving, Debugging, Agile/Scrum Based Working

EXPERIENCE

Miraj Group (IT Division)

Udaipur, India

Software Development Engineer Intern

Jun 2025 – Jul 2025

- Architected and developed full-stack Electronic Shop Management System using **ASP.NET Core, Entity Framework, and SQL Server**, handling **2,000+ daily transactions** with optimized database indexing and query performance tuning
- Designed normalized database schema with **12+ tables** implementing ACID properties, foreign key constraints, and triggers that improved data retrieval speed by **40%**
- Collaborated in Agile development environment with 2-week sprints, utilizing Git for version control and participating in code reviews

PROJECTS

CodeFlow AI – LeetCode Learning Companion *Next.js, TypeScript, AWS, DynamoDB, Bedrock* [🔗 GitHub](#)

- Built an AI-powered platform to analyze LeetCode profiles, identify weak topics, and generate personalized learning paths
- Developed serverless backend using **AWS Lambda, API Gateway, and DynamoDB** with microservices for authentication, scraping, analysis, chat, and recommendations
- Integrated **Amazon Bedrock (Nova Lite)** to implement AI mentor for code debugging, concept explanations, and multi-level hint generation
- Designed scalable NoSQL schema managing users, progress tracking, chat history, and learning paths
- Implemented JWT-based authentication and secure API authorization using custom Lambda authorizer

CompuNet - Computer Website

HTML, CSS, JavaScript [🔗 GitHub](#)

- Developed a responsive computer website with modern UI design using HTML, CSS, and JavaScript
- Implemented Courses sections, interactive navigation, and dynamic frontend components
- Optimized website responsiveness for desktop and mobile devices improving user accessibility

Multi-Threaded Banking System

Java, MySQL, JDBC, Swing, Multithreading

- Developed thread-safe banking system handling concurrent transactions with synchronization mechanisms
- Applied OOP design principles improving code modularity and maintainability
- Optimized SQL queries reducing processing time for large transaction records

LEADERSHIP & ACHIEVEMENTS

- ACM Student Chapter Creative Lead:** Organized technical workshops and hackathons for students
- Google Cloud GenAI Competition Winner:** Built AI prototype using Vertex AI and LangChain
- Fashion Club President, LNMIIT:** Led a team organizing inter-college cultural events
- Teaching Assistantship Certificates:** Awarded Teaching Assistant certificates for **Design and Analysis of Algorithms** and **Computer Networks** at LNMIIT
- Priyadarshini Award Recipient:** Awarded for securing **District Top Rank** in academics
- Solved **300+ DSA problems** across LeetCode and coding platforms
